

## CTC Source Protection Committee Member - Biography

**Peter Miasek**

**Petrochemical Industry**

Peter Miasek has a Ph. D. in Chemistry and 38 years' experience in the petrochemical industry. His most recent work was as a senior environmental advisor in the field of contaminated sites, involving implementation of human health and environmental protective measures at a variety of contaminated sites across Canada. He also worked closely with industry associations and federal and provincial regulators to develop new regulations, guidelines, protocols and processes for contaminated sites and brownfields.

Dr. Miasek is now active with several non-government organizations that advocate for sustainable public transportation and active transportation in Ontario and on compact urban development in the Greater Toronto Area.
