

## CTC Source Protection Committee Member - Biography

**Louise Foster**

**Land Development Industry**

Louise Foster, MCIP, graduated from the University of Waterloo in 1982 with an Honours Degree in Environmental Studies, Urban and Regional Planning. She has worked for both the public and private sectors in the area of land development and planning in southern Ontario.

Since 2006, Ms. Foster has worked with Walton Development and Management Inc., a land management and land development management company, as Senior Planning Development Manager for Ontario. Prior to accepting this position, she was President of LF Management Services Limited, a land development and project management company, coordinating all development processes including planning, engineering, design, approvals, budgets, construction and financing for small and large residential, golf course and commercial developments for numerous private sector clients. Additional expertise in the areas of construction and private, self contained water and sewage treatment facilities expanded her client base to include golf course communities and developers in communities in the outer GTA areas.
